WORK EXPERIENCE

Junior Full-Stack Developer

Badische Neueste Nachrichten [01/12/2023 – Current]

City: Karlsruhe

Country: Germany

- Utilized **ReactJS** for dynamic client-side rendering, enhancing web applications with modern and efficient user interfaces.
- Employed **Docker** for containerization, ensuring consistent deployment environments across development stages.
- Implemented **HTML**, **CSS** and **JavaScript** to create interactive and responsive user interfaces, improving overall user experience.
- Styled web applications effectively using **SCSS** (Sass) for enhanced maintainability.
- Managed code repositories and facilitated collaborative code reviews using **Bitbucket** for streamlined version control.
- Utilized **Jira** for efficient project management and **Confluence** for organized documentation, fostering smooth communication within the development team.

Working Student - EDT Data Protection Team

SAP SE [01/09/2022 – 31/05/2023]

City: Walldorf

Country: Germany

- Engineered a robust system architecture leveraging **NodeJS** for the backend, and **VueJS** and **ReactJS** with **HTML**, **CSS**, and **JavaScript** for the frontend, with version control managed through **Git** and **GitHub**.
- Seamlessly integrated with **SAP Analytics Cloud (SAC)** dashboards for real-time data visualization and analytics, ensuring efficient collaboration and data-driven decision-making processes.
- Enhanced system security and user anonymity through advanced safeguard protocols, employing modern technologies such as **ExpressJS** and **MongoDB** for efficient data management.
- Designed and executed comprehensive **Postman** test suites to validate the **RESTful API** functionalities, reinforcing the system's security and anonymity features.

EDUCATION AND TRAINING

Master in Applied Computer Science

SRH Heidelberg [01/10/2021 – 30/09/2023]

Bachelor of Technology in Computer Science and Engineering

Parul Institute of Engineering and Technology [30/06/2016 – 20/05/2020]

DIGITAL SKILLS

Developing Tool

Docker / CloudFoundry / Web Development / Git / Development: MERN Stack, Firebase / Web Development: HTML 5, CSS, JavaScript / Postman / Agile (Scrum) / GIT (GitHub) / RESTful Webservices / Visual Studio / Visual Studio Code

Programming Language

C/C++ / Object-Oriented Programming / RESTful api / Python Programming / CSS / Nodejs nivel intermediar / NodeJS and ExpressJS / JSON / Angular Js / Bootstrap / VueJS / SQL/MYSQL / JQuery / Web API / JavaScript

PROJECTS

House Marketplace

[12/01/2024 – 30/01/2024]

- Experienced **ReactJS** developer proficient in **JavaScript, HTML, and CSS**, with a focus on creating dynamic house marketplace applications.
- Leveraged **SwiperJS** for seamless mobile touch interactions, ensuring optimal user experience.
- Integrated **Firebase** for real-time data management, enhancing platform responsiveness and scalability.
- Demonstrated ability to navigate modern web development frameworks to deliver engaging and efficient solutions.

BrainWave

[13/02/2024 – 29/02/2024]

- Write here the description...Developed a dynamic **single-page application (SPA)** using **JavaScript, HTML, CSS, ReactJS**.
- Implemented efficient build processes with **Vite**, ensuring rapid development and deployment cycles for seamless user experiences.
- Designed responsive user interfaces with **Tailwind CSS**, optimizing the application for diverse devices and screen sizes.
- Leveraged **ReactJS** to create interactive and engaging content, enhancing user interaction and overall usability of the application.

College Learning Resource

[03/02/2024 – 10/02/2024]

- Proficiently developed a cutting-edge college learning resource platform utilizing **JavaScript, HTML, CSS, ReactJS, NodeJS, and ExpressJS**.
- Engineered real-time collaboration functionalities through **Socket.io-client**, fostering interactive learning environments for students and educators.
- Leveraged **Three.js** for immersive **3D visualization**, enhancing engagement and comprehension of complex concepts.
- Implemented robust data management solutions with **MongoDB** and **Mongoose**, ensuring efficient storage and retrieval of educational resources.
- Incorporated **SunCalc** library to provide precise sun and moon position calculations, enriching the platform's contextual learning experiences.

SuperNotes with Face Recognition

[01/08/2023 – 31/08/2023]

- Spearheaded the development of the SuperNotes web application, leveraging **NodeJS, ExpressJS, MongoDB, and PassportJS** to build a robust backend infrastructure, with version control meticulously managed through **Git** and **GitHub**.
- Implemented an innovative face recognition system utilizing **Face-API.js**, enhancing the note categorization and retrieval functionalities of the platform.
- Integrated **jQuery** and **Bootstrap** to create responsive and user-friendly pages such as the dynamic Profile and New Note pages, significantly enhancing user engagement and interaction.
- Employed advanced **JavaScript** and **EJS** templating for seamless frontend and backend integration, facilitating the creation of a highly intuitive user interface.
